

Duke Wedding Photography specialises in reportage wedding photography. We photograph, design and create bespoke books.

By definition reportage photography is about images that tell a story. Our photographers, who hail from an editorial background, work closely with their clients to provide sequences of images that best describe them. Combining narrative, portrait, fashion and still life photography with traditional group pictures, the final book showcases every aspect of your wedding.

Feel free to visit our Duke Street gallery to view examples of our photography and browse through our bespoke wedding books. We are happy to chat about how we can help enhance your day and tailor our photography service towards your wedding day. Please call the gallery on 0131 555 0737 to book an appointment or visit our website at www.dukestudios.co.uk
